FIXED PRICE LIST #2

OPENING

After the largely successful sale of the Larry Schmidt collection of contemporary counterfeit Capped Bust half dollars (CBHs) in October 2025, for which many pieces have now been dispersed to great new homes (although some are still available), I was asked to create another sale catalog. Sale #2 is the culmination of mostly smaller collections I've acquired over the past couple years which were set aside and largely unsorted until now. As shown on the left, this includes mostly silver U.S. denominations but also gold, some Mexican type, and other interesting pieces.

This is both a **Fixed Price List (FPL)** and a **Best Offer** sale. All inquiries are on a first-come, first-served basis, but priority will be given to buying at the listed price followed by any offers received (whereby I accept, counter, or reject the offer). All coin descriptions are using the best available information to me at the time of this Sale.

100% of the proceeds from this sale will be used to fund what I hope are significant BadMetalCoin.com website improvements, especially an online database of contemporary (and modern) counterfeit coins, for the benefit of the numismatic community.

Price. 125

FIXED PRICE LIST #2

LOT 14.

Variety. 1831 D.1-A; Z.4-P

Family. Ski Nose

Population. 10+

Planchet. Tin-based

Edge Lettering. LRE.119-AAU.

Description. VF+ meaty details and one of the nicest examples documented. Minor to moderate tin-pest forming on the surface but this seems to be stable. This is one of the very few CBH die marriages known struck on a tin planchet.

Price. 175

LOT 15.

Variety. 1832 D.1-A; Z.18-DY

Family. (singleton)

Population. 10+

Planchet. German silver

Edge Lettering. LE.161-ACJ.

Description. VG+. Few relatively minor surface issues consistent with other contemporary counterfeit CBHs. Photos are overly bright.

Price. 90

FIXED PRICE LIST #2

Family. (singleton)

Population. 14+

Planchet. German silver

Edge Lettering. LRE.164-ACM.

Description. VF+ details. Semi-unusual dark surfaces but a couple other examples have been similarly documented. A couple obverse test scrapes are the only major issue

Price. 135

1833 D.1-A; Z16-EO. Too Legit to Quit. 3 Examples

ALL KNOWN

Population. 100+

Planchet. German silver

Edge Lettering. LRE.132-ABG.

LOT 18.

EF+. A very nice, problem-free example of this variety.

SOLD Price. 110

LOT 19.

VG. Average example with some field scratches.

Price. 40

LOT 20.

Many of the details are incuse making for a ghostly effect.

Family. Mexican Head

Population. 20+

Planchet. German silver

Edge Lettering. LRE.105-AAF.

Description. VF+ with really solid details. Only the most minor thin test scratches mar this example from being fully problem-free.

Price. 135

LOT 22.

Variety. 1833 D.6-F; Z.32-FF

Family. (singleton)

Population. 15+

Planchet. German silver

Edge Lettering. LRE.169-ACR.

Description. VG details, honest wear, and some thin but noticeable test scratches. An odd circular stain by the denomination is also present.

Price. 55

FIXED PRICE LIST #2

LOT 23.

Variety. 1833 D.8-H; Z.7-Z

Family. Sans Serif S

Population. 9+

Planchet. German silver

Edge Lettering. LE.134-ABI.

Description. G/VG details, honest wear, and some minor scratches and surface pecks. A semi-scarce variety with a cool repunched second 3 in the date.

SOLD Price. 150

LOT 24.

Variety. 1833 D.19-S; Z.10-EJ

Family. Buck-Toothed Eagle

Population. 8+

Planchet. Billon

Edge Lettering. LE.102-AAE.

Description. This is an above-average quality example of this semi-scarce variety with one of the few backwards digits, the 1, in the date. Essentially clean, problem-free surfaces except for a couple hairline scratches.

Price. 175

FIXED PRICE LIST #2

LOT 25.

Variety. 1833 D.20-T; Z.8-CP

Family. Buck-Toothed Eagle

Population. 11+

Planchet. Billon

Edge Lettering. LE.102-AAC.

Description. VG+ details whereby you tend to grade examples from this family based on reverse wing details. Mostly problem free except for some planchet cracks. Great color and bold details throughout.

Price. 150

LOT 26.

Variety. 1833 D.20-T; Z.8-CP

Family. Buck-Toothed Eagle

Population. 11+

Planchet. Billon

Edge Lettering. LE.102-AAC.

Description. G/VG details and essentially problem-free for the grade. Great color flowing from medium silver to rich orange-browns. Overall equal in quality to the preceding lot.

Price. 150

FIXED PRICE LIST #2

LOT 27.

Variety. 1834 D.1-A; Z.10-FR

Family. Puckered Lips

Population. 14+

Planchet. Copper-based (other)

Edge Lettering. (unclear).

Description. A mix of decent details and a couple deeper obverse field scratches. Most examples of this variety are known as a copper or bronze planchet whereas the white-metal, brass nickel planchets are the scarcest.

Price. 75

LOT 28.

Variety. 1834 D.1-A; Z.10-FR

Family. Puckered Lips

Population. 14+

Planchet. Bronze-Phosphor

Edge Lettering. (unclear).

Description. A really nice, evenly worn, milk chocolate surface color and surface preservation, rarely seen on this variety in this lower grade.

Price. 75

LOT 29.

Variety. 1834 D.1-A; Z.10-FR

Family. Puckered Lips

Population. 14+

Planchet. Copper

Edge Lettering. (unclear).

Description. A choice even chocolate brown copper planchet. A couple minor obverse scrapes which are to be expected for a piece like this. Ex. David Wnuck; David Kahn.

Price. 100

FIXED PRICE LIST #2

LOT 30.

Variety. 1835 D.1-A; Z.13-HW

Family. Smushed 8s

Population. 7+

Planchet. Brass

Edge Lettering. Reeded.

Description. It's a butt ugly survivor, possibly the worst example of this variety known!?

Price. 50

LOT 31.

Variety. 1835 D.1-A; Z.13-HW

Family. Smushed 8s

Population. 7+

Planchet. Brass

Edge Lettering. Reeded.

Description. Nicer than the prior lot but more character with those massive planchet cracks. A mix of AG obverse and F+ reverse. This is a semi-scarce variety looking for a new home.

Price. 150

FIXED PRICE LIST #2

LOT 32.

Variety. 1835 D.2-B; Z.2-FU

Family. Buck-Toothed Eagle

Population. 13+

Planchet. ~Brassy-Silver

Edge Lettering. Lettered (unclear)

Description. AG details. Interesting circular countermarks on the obverse. I paid too much for this piece once upon a time. Offering it for my cost but understandably open to offers.

Price. 225

LOT 33.

Variety. 1836 D.5-E; Z.3-EO

Family. Too Legit to Quit

Population. 10+

Planchet. German silver

Edge Lettering. LRE.132-ABG

Description. F+ details and about as nice as this variety comes. Some obverse damage as noted in the dark areas, but a perfectly problem-free reverse. Offering it for my cost but understandably open to offers.

Price. 175

FIXED PRICE LIST #2

LOT 34.

Variety. 1837 D.7-G; TD.GR-1

Family. (singleton)

Population. 3

Planchet. German silver

Edge Lettering. Reeded

Description. I know this piece doesn't look pretty, but it's about as nice as they come from the 3 examples documented. Are there nicer examples out there? I hope so! The largest issues are the two obverse digs behind Liberty's head.

Price. 200

LOT 35.

Variety. 1838 D.1-A; Z.11-HC

Family. Droopy Leaves

Population. 9+

Planchet. German silver

Edge Lettering. Reeded

Description. This is one of the most worn examples of this variety documented. It retains a lot of its originality with mostly minor scrapes except for the slightly larger obverse cut. Overall, reeded edge counterfeit CBH varieties are tough to find.

Price. 150

FIXED PRICE LIST #2

LOT 36.

Variety. 1838 D.3-E; Z.3-EP

Family. Too Legit to Quit

Population. 50+

Planchet. German silver

Edge Lettering. LRE.132-ABG

Description. A VG details piece with a not uncommon test scratch on the obverse and surface flat spots mostly on the reverse.

Price. 50

FIXED PRICE LIST #2

LOT 37.

Variety. 1853 Z1-C

Family. High Caliber

Population. 18+

Planchet. German silver

Description. A mid-grade example of this semi-scarce variety. Some reddish staining notable on the surface.

Price. 110

LOT 38.

Variety. 1853 Z1-C

Family. High Caliber

Population. 18+

Planchet. German silver

Description. This piece is an ICG holder incorrectly labeled as '1858'. Nice VG+ details with clean, honest wear.

Price. 110

LOT 39.

Variety. 1858 TD.2-TD.C

Family. Mix and Match

Population. 14+

Planchet. German silver

Description. Darker in color but solid mid-grade details.

Price. 99

FIXED PRICE LIST #2

LOT 40.

Variety. 1860 Z1-J

Family. Almost Right

Population. 23+

Planchet. German silver

Description. Very nice eye-appeal for a contemporary counterfeit combining both mid-high-grade details with some surface toning.

SOLD Price. 110

LOT 41.

Variety. 1860 Z2-K

Family. Almost Right

Population. 21+

Planchet. German silver

Description. A choice mid-grade example of this variety which is actually quite difficult to find in higher grades.

Price. 80

LOT 42.

Variety. 1860 Z3-L

Family. Almost Right

Population. 17+

Planchet. German silver

Description. A mid-grade, problem free example.

Price. 70

FIXED PRICE LIST #2

LOT 43.

Variety. 1861 Z1-M

Family. Almost Right

Population. 9+

Planchet. German silver

Description. A really nice EF or AU grade piece. Yes, it has verdigris, but I believe it can be removed (I have not tried).

Price. 150

LOT 44.

Variety. 1861 Z2-N

Family. Almost Right

Population. 25+

Planchet. German silver

Description. A very respectable VF+ example. There is a little bit of dark surface spots which may be able to be carefully removed to make this example pop even more. Scarcer medal turn example.

Price. 80

LOT 45.

Variety. 1861 Z2-N

Family. Almost Right

Population. 25+

Planchet. German silver

Description. A nice, crusty VF example with even wear, and no surface issues of note. Scarcer medal turn example.

Price. 75

FIXED PRICE LIST #2

LOT 46.

Variety. 1861 Z4-P

Family. Almost Right

Population. 50+

Planchet. Brass

Description. A really nice EF+ example of this late die state with a heavily cracked obverse die. The only issue of note is a semi-hidden obverse scratch (dark streak) in the lower-right field.

Price. 120

LOT 47.

Variety. 1861 Z5-Q

Family. Star-Shield Amateur

Population. 20+

Planchet. German silver

Description. This really is a very nice, VF/EF example of a variety that I could not find a decent example of for a few years. While nicer examples than this piece have surfaced in the last 5-10 years, not many have and most are still lower-grade, problem, or ugly pieces. This piece looks nicer than the photo shows.

SOLD Price. 150

FIXED PRICE LIST #2

FIXED PRICE LIST #2

LOT 48.

Variety. 1861 Z1-Y

Family. 1861 Dime

Population. 13+

Planchet. Brass

Description. A mid-grade example of this common variety. A small bit of metal on the reverse likely comes from an attachment that has since been removed.

Price. 15

LOT 49.

Variety. 1888 TD.1-TD.Z

Family. Transition

Population. 10+

Planchet. Brass

Description. A lower mid-grade example of this common variety with the Barber dime reverse.

Price. 20

Population. 10+

Planchet. Brass

Description. A super low-grade piece.

Price. 5

FIXED PRICE LIST #2

LOT 51.

Variety. 1859 Z1-D

Family. (singleton)

Population. 5+

Planchet. German silver

Description. A nice VG/F example of this rarer hand-made die Seated quarter variety. Essentially problem-free other than some modest corrosion around the reverse lettering.

SOLD Price. 350

LOT 52.

Variety. 1860 Z1-F

Family. (singleton)

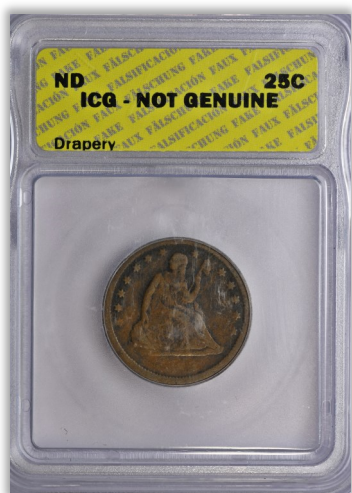

Population. 5+

Planchet. Brass

Description. A scarce variety for which probably 20 or more survive. This example exhibits VG+ details with several obverse test scratches. Nevertheless, a fun hand-made die variety.

Price. 110

FIXED PRICE LIST #2

LOT 53.

Variety. 1842-O TD.1-TD.B

Family. New Orleans Quarter

Population. 4+

Planchet. Brass

Description. A lower mid-grade example of this rare variety. The date is scratched out but the variety is still attributable. In an ICG holder

Price. 110

LOT 54.

Variety. 1844 TD.1-TD.F

Family. (singleton)

Population. 3+

Planchet. Copper

Description. A nice example of this variety exhibiting Good details, although this probably represents a level of wear in the VF/EF range based on the two other examples seen. Mostly problem free other than the scratches on the reverse.

Price. 125

LOT 55.

Variety. 1878 TD.1-TD.K

Family. (singleton)

Population. 6+

Planchet. Brass

Description. A scarce example of this variety exhibiting G/VG details. Few marks worth noting, and those present blend into the coin fairly well. The obverse is a bit nicer than the reverse.

Price. 65

FIXED PRICE LIST #2

LOT 56.

Variety. 1876-S Z1-S

Family. Ostrich Neck

Population. 6+

Planchet. Brass (silver plating)

Description. This example has nice VF+ details with darker, brassy surfaces and a good portion of the original silver plating remaining. Graffiti is noted in the right obverse field.

Price. 125

LOT 57.

Variety. 1878 Z1-X

Family. (singleton)

Population. 15+

Planchet. Brass

Description. A lower-grade example of this moderately scarce variety. This is a later die state example with raised metal die corrosion(?) around HALF.

Price. 125

LOT 58.

Variety. 1854-O TD.2-TD.J

Family. (singleton)

Population. 2+

Planchet. Brass

Description. A very rare variety which is very well-worn and may have been someone's pocket piece. Enough details are visible to confirm the variety.

Price. 125

FIXED PRICE LIST #2

LOT 59.

Variety. 1916-S TD.1-TD.A

Family. (singleton)

Population. 10+

Planchet. German silver

Description. Well-struck and relatively high-grade example of this popular contemporary counterfeit Buffalo nickel variety. This has the later die state obverse die crack at 9 o'clock.

SOLD Price. 75

LOT 60.

Variety. 1907 TD.1-TD.C

Family. (singleton)

Population. 7+

Planchet. Brass

Description. This example shows very nice VF+ details, is evenly worn, and has relatively even surface color notwithstanding the reverse streak. Overall, die struck contemporary counterfeit Barber coins are tougher to find than most other types.

SOLD Price. 85

LOT 61.

Variety. 1921 Z1-A

Family. Fat Motto

Population. 15+

Planchet. Sterling Silver

Description. This example is fairly average grade for the variety with VG details and no major problems worth noting.

Variety. 1900-O VAM 5; TD.1-TD.A

Family. Micro O

Population. 10+

Planchet. Sterling silver

Description. Although documented since at least 1963, most examples seen are in the grade range of the example shown here. In contrast, VF or nicer examples of this variety are very scarce. The only issue with this example is a depression on the O in ONE.

Variety. 1901-O VAM 44; TD.1-TD.F

Family. Micro O

Population. 4+

Planchet. Sterling silver

Description. This is a heavily circulated example of this very scarce variety. The reverse die crack at the top of ITED is only faintly visible but this offers the confirmative attribution die marker for this variety. Similarly, the weakness of ONE DOLLAR is also consistent across this variety. This will be a tougher variety to find in the wild, but if you're a patient coin hunter a nicer example is likely to eventually pop up.

Variety. 1902-O VAM 63; TD.2-TD.B

Family. Micro O

Population. 5+

Planchet. Sterling silver

Description. A nice example of this very scarce variety sporting Fine details with very few known nicer than this. The die lump around the outer leaves above AR in DOLLAR is the primary die marker for reverse B, and less obvious obverse markers attribute that die. If you want to save yourself the tedious hunting for this variety—which is part of the fun in numismatics—this is a solid example to pickup.

Variety. 1856 Z31-A

Family. *Small-Large Head* (name pending)

Population. 7+

Planchet. Brass

Description. This variety is 1 of 7 hand-made die counterfeit gold dollar varieties dated 1856 documented. This counterfeiter used the wrong, small head portrait style (Type 2) associated with this date which should instead have been a large head. This example is in REALLY NICE condition.

Population. 7+

Planchet. Red Brass

Description. A scarce variety which is known primarily on brass planchets and in much rarer cases German silver planchets. This example is a mid-upper grade piece with traces of the gold plating remaining, and where the plating has been removed those surfaces are speckled.

Variety. 1843 Quarter Eagle Z1-B

Family. (*Family K*; actual name pending)

Population. 5+

Planchet. Brass

Description. This example shows VG/F details, which is consistent with most of the other examples seen. Some traces of gold plating remain. The downside with this example is the damage to the right side of the obverse and reverse.

LOT 71.

Variety. 1851 Quarter Eagle Z2-E

Family. *1851 Family* (name pending)

Population. 4+

Planchet. Brass

Description. This is a relatively rare variety. This example exhibits F/VF details when compared to the genuine coin, although in terms of wear this likely represents EF details and no issues of note. This is the 2nd nicest example amongst the examples documented. As such, this should be a respectable addition to a collection of contemporary counterfeit quarter eagles.

Variety. 1851 Quarter Eagle Z1-D

Family. *1851 Family* (name pending)

Population. 8+

Planchet. Brass

Description. This is a relatively scarce variety belonging to a family of at least 3 total 1851-dated quarter eagle varieties. This variety is known struck on silver, brass, and copper planchets, of which silver planchets are the most documented planchet type. This example is very well worn and holed, suggestive of a pocket piece and/or used on jewelry.

Population. 8+

Planchet. Yellow brass

Description. This is a very nice example of this variety, especially when compared with many of the other examples documented. Easily VF if not EF details, with the obverse stronger than the reverse. Essentially undamaged other than the reverse dark areas potentially being a light bit of corrosion or just foreign surface material.

Population. 20+

Planchet. Billon

Description. This is a nice, mid-grade example without really any surface issues. Among all the contemporary counterfeit cap and rays 8 reales varieties, this is a relatively common variety which is still today regularly advertised and sold as a genuine coin—and based on the quality of die work that is understandable. Even Riddell documented one of these in his 1845 *Monograph* as # 365.

Variety. 1856 Large Cent Cast

Population. 3+

Planchet. 90% Pb; 5% Sb; 3% Cu; 1.5% Sn + Fe

Description. Cast counterfeit large cents are fairly few and far between, but examples do pop up from time to time. Most pieces are from the 1840s and mid-1850s thus making this later date relatively scarce. If you are looking to add a contemporary counterfeit large cent into your collection this cast example will be cost-effective relative to the handful of die struck counterfeits known.

Variety. 1853 Gold Dollar Cast

Population. 2+

Planchet. 74% Sn; 9.5% Sb; 7.6% Cu; 7.6% Au (plating); trace Ag+Pb

Description. Type I gold dollars were the smallest U.S. coin ever made. Potentially due to this small size, cast counterfeits of this coin type are quite scarce (as are cast counterfeit 3cS). This example is actually quite well-made for such a small coin and more than 50% of the original gold plating is still present. If you are working on a contemporary counterfeit type set, especially with casts, this is one piece you may want to pickup.

Variety. 1799 Altered date 'Half Cent'

Population. 1

Description. Here's a fun novelty coin whereby an original 1790s dated large cent, maybe 1798, was altered to 1799 and at one point cut in half effectively making a half cent. I cannot swear there is a second example like this out there, but I would guess this piece is unique amongst early copper.

Variety. '1804' Altered date large cent

Description. This is another fun coin that can act as an affordable hole-filler in your collection for this 'key date' large cent. Obviously this is holed and plugged at the coincidental last digit in the date whereby a '4' was carved in its place with noticeably fresh metal. At the very least, you are getting a VG/F details (holed and plugged) draped bust large cent. Those of you smarter than me at EAC varieties will be able to identify the true date and Sheldon variety of this piece.
